

RESCUE CITY

EUROPE'S LARGEST TRAINING BASE

GET THE TRAINING YOU NEED

YOU AND YOUR COLLEAGUES CAN TRAIN UNDER REAL CONDITIONS IN A SAFE ENVIRONMENT WITH PROFESSIONAL AND EXPERIENCED TRAINERS AND A SAFETY TEAM THAT IS BEHIND YOU AT ALL TIMES.

Since 2012, Training Base Weeze GmbH & Co. KG has been your contact for effective and intensive real fire training on the Lower Rhine. We are the leading training and advanced training centre for fire brigades, rescue services, police, military and civil protection organisations from all over Europe.

Let an experienced team of experts prepare you ideally for your next assignment. Because only optimally prepared emergency services return safely!

Our facility, which is unique in Europe, offers you every conceivable operational scenario. On the former Royal Air Force base in the direct neighbourhood of the Netherlands, you can expect training scenarios on over 60 hectares, such as

- various residential buildings, from detached houses to multi-storey apartment blocks,
- commercial enterprises, such as a car repair shop, a supermarket, a bus depot and much more,
- a former hospital,
- school and administration building,
- restaurants and snack bars,
- several fields of rubble and collapsed buildings for search and rescue exercises,

- an industrial plant with associated tracks and various wagons,
- aircraft and helicopter mock-ups in various designs,
- a passenger train, as well as all conceivable vehicles,
- an underground car park and much more.

We don't imitate reality, we live it! Thanks to the countless possible combinations of our scenarios and difficulty levels, training participants are constantly faced with new tasks.

Our trainers work very closely with our technical team in all specialist areas. This gives us the opportunity to constantly create new training scenarios and optimise the existing scenarios to suit your training objectives.
